Subject: RE: El Toro Road Projects - Estimated Delivery of 100% PSE?

Doug,

I don't have any concerns about finalizing the design for the package to be ready to bid in early 2023. I think the critical path for the project will be the right of way acquisition which we should be able to move full force on after we get this package in to you and you give any final feedback before release to the property owner. If there were to be anything that was going to cause the schedule to slip it would be acceptance of the R/W take and any private comments or objections that come in to play as a result of the widening, but we will have to cross that bridge once we get there.

Hope it's a great end of the week for you and I'll look forward to seeing all of this move quickly towards construction!

Subject: [External] El Toro Road Projects - Estimated Delivery of 100% PSE?

David,

We're trying to do some advanced planning for our upcoming capital projects in order to make sure we have CM/Inspection on board when we're ready to bid. When do you anticipate having the El Toro Road Project Package ready? I think we were targeting having it out for bid in early 2023, is that still on schedule? And just to confirm, the combined package will have:

El Toro Medians
El Toro Resurfacing from Jeronimo to Trabuco
Arterial Median Improvements (Trabuco @ El Toro)
Jeronimo/El Toro Realignment

Let me know if there's any change in schedule for this. Thanks!
