**Subject:** RE: TI for Bake Parkway & El Toro Road

Ali – Here you go. Also, FYI Lake Forest and Bake actually intersects twice (one in Irvine, which is not in this scope and another in Lake Forest).

Lake Forest – between I-5 to Pittsford = 12.0  
Lake Forest – between Pittsford to Towne Centre = 11.0  
Lake Forest – between Towne Centre to Bake Parkway = 10.0

Any questions, please let me know.

**Subject:** RE: TI for Bake Parkway & El Toro Road

Hi Tran,

I hope you had a great weekend.

We are currently performing pavement engineering analysis for Lake Forest Drive Resurfacing Project, and we still need the TI for this section. Can you please provide us with this TI?

**Project limits:** Lake Forest Drive between Bake Parkway and I-5 Freeway.

Thank you,

**Ali Zalghout, MSc**  
Pavement Engineer

**Subject:** RE: TI for Bake Parkway & El Toro Road

Hi Ali,  
Sorry for the delayed response. Here are the TI's:

- Bake Parkway – S Pointe to Rancho Parkway = **12.5**
- El Toro Road – I-5 Freeway to Trabuco = **13.0**
  - El Toro Road – Trabuco to Marguerite = **12.0**

Hi Tran,

I hope all is well.

I would greatly appreciate it if we can get the specific TI for each of the sections below soon, so we can come up with our recommendations.

Thank you!

**Subject:** TI for Bake Parkway & El Toro Road

Tran,

Can you confirm what TI we should be using for Bake Parkway and El Toro Road?

Limits are:

- Bake Parkway – S Pointe to Rancho Parkway
- El Toro Road – I-5 Freeway to Marguerite Parkway

GMU is about to wrap up the prelim recommendations for Bake Parkway so any info you can get for that segment on a quicker turnaround would be greatly appreciated.

Thanks!
