Director's Report:

Adoption-by-Appointment program received the National Association of Counties (“NACo”) Achievement Award. The Adoption-by-Appointment program has been replicated by many counties throughout the country. Fact checker documents help contract cities better understand OCAC operations to respond to public comments and questions. A new full-time chief veneration has been hired to fill the vacancy, along with two staff veterinarians.

Licensing and Canvassing

Unannounced door-to-door contacts for pet licensing have been eliminated to ensure employee safety. This has reduced fuel and vehicle costs while maintaining steady licensing issuance and renewal revenue. In-person visits have been replaced with data canvassing from records available through veterinary offices, courtesy calls, email, and social media messaging. Community outreach team also promotes licensing through events.

Operational Report:

OCAC is gearing up for kitten season, which includes a high stream of foster-program related kitten work. More volunteer rescue and transport opportunities for kittens are now available.

Budget Report:

Projected net cost remains \$700,000 under budget as of April 30th for Fiscal Year 2021-22. NOI's were delivered to contract cities in April. Options to discuss NOI changes one-on-one with OCAC staff are available.
